WHO WE ARE

YD is the Project of Taj Agri Farm, We Started YD fattening & Dairy Farm in 2020 with the limited animals of Fattening and dairy at Saleh-pat Town of Sukkur District Sindh Province Pakistan. Now our Farm size has been Increased with the heads around total 300 to 500 Live animals in both segments.

We developed our Cattle Farming business in very recent time in the Local as well as nation wide market and we supply Fattening Animals to our valuable Clients For exporting Meat and also milking supply to our local market with in the Saleh-pat area.

We deal only with local animal Breed of Pakistan.

We aim to achieve to make our brand value stronger so that our clients & customer feel satisfied by our service and Products.

OUR VISION

We focus on the farming for quality Meat & Milk Products and Services.

OUR MISSION

We offer wide range of animals for highest Quality Meat & Milking products & services at good Price so that as many people as possible will be able to afford them

YD ANIMALS SEGMENT

➤ Milking Cows:

In our farm we control local breeds of cows Cholistani & Sindhi. Both are very reliable breeds that are for husbandry as well as for milking business to local market.

We Produce 10 to 12 kg of milk in 24 hours from both these breeds Cholistani & Sindhi. The milk yield of both these breeds, Cholistani & Sindhi for minimum 2 to 3 months and for maximum time 4 to 5 months this yield at our farm environment conditions.

We use bulls for Beef and their maximum weight are 700 to 800 kg at our farm conditions. These are breed of Pakistan is quite robust and excellent and with less sickness elements.

We do health inspection of Milking animals on weekly base from our best veterinary Doctor, Feed Items we use for Milking animals are (Wheat Straw, Wheat Grain, Roadhgrass and fresh silage).

YD ANIMALS SEGMENT

➤ **Milking Buffaloes:**

In our farm we control local Pure Sindhi breed of buffaloes (Kundhi Cross Buffaloes) that is very reliable for husbandry as well as for milking business to locals and also its very demandable in market.

We Produce 12 to 14 kg of milk in 24 hours from this breed of buffaloes. The milk yield of kundhi cross for minimum 2 to 3 months and for maximum time 4 to 5 months this yield at our farm environment conditions. Kundhi breed of Sindh is quite robust and quite excellent and less sickness elements. It is best thing about kundhi is that it is adjustable breed according to temperature.

We do health inspection of Milking animals on weekly basis from our best veterinary Doctor Feed Items we use for Milking animals are (Wheat Straw, Wheat Grain, Roadhgrass and fresh silage).

YD ANIMALS SEGMENT

➤ Fattening Bulls:

We have desi cross breed Sahiwal and Cholistani beef animals at our farm. We buy these breeds from Multan, Lodhran, and Bahawalpur Markets.

We buy 200 to 240 kg desi cross animals from market and prepare it into 80 to 100 days depending on the demand of our clients and customers and get the maximum weight gain to 290 to 310 kg.

We use best quality feed for beef animals to get healthy weight and our focus is on the halal feed which is certified and we also utilize fresh feed for animals.

We do health inspection of beef animals on weekly base from our best Veterinary Doctor. Feed Items we use for Fattening animals are (Wheat Straw, Meat Wanda, Roadhgrass and fresh silage).

YD ANIMALS SEGMENT

➤ Seasonal Fattening Bulls (SFB-EID):

We also prepare animals for Eid Event on our farm, the maximum weight of which is around 700 to 800 kg size of animals. For Eid event we prepare a special breed animals which includes pure Cholistani & Sahiwal Breed.

The medical treatment of Eid animals is checked every month and also their weight, to avoid any disease. Feed items we use for SFB Animals are (Wheat Straw, Meat Wanda, Wheat Grain, Roadhgrass & fresh Silage)

YD WORKING INFRASTRUCTURE

- **Trained & Skilled Human Resources:** We have trained & skilled full labor force which is worked very efficiently. Our labor force is divided into three sections, a Separate team for Dairy Animals and for meat animals and the rest of the team check the quality of animal feed and management system.
- **Machinery Utilization:** We use machinery on our cattle farm to feed the animals with in the time we use TMR machine so that the correct quantity of feed is given to each animal and used the correct feed formula to maintain the quality of animals to get weight target on monthly bases.

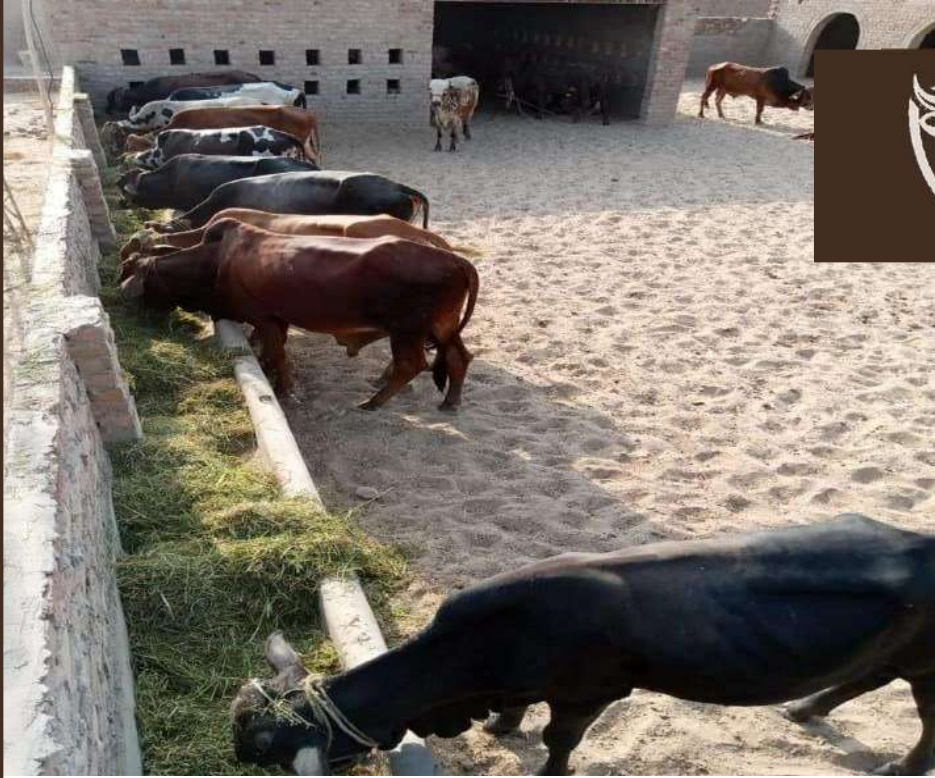

YD WORKING INFRASTRUCTURE

➤ Feed Quality Measure & Quarantine Facility:

The Quality of the feed on our cattle farm is checked in advance by our veterinary doctor we give the Meat Wanda, Fresh Corn Silage, Wheat Straw, wheat grain & Green Fodder we check the certification and quality of any feed item which we buy from outside from market so that no damage or any such ingredients can be found on our cattle farm.

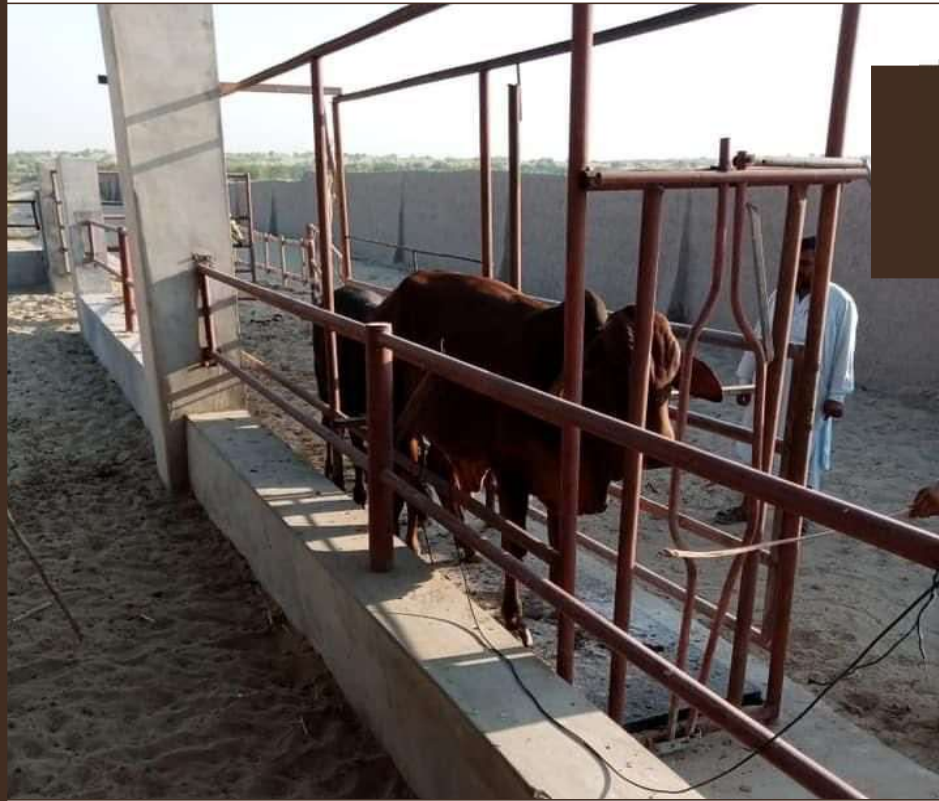

We have quarantine facility at our cattle farm for animals. According to our doctors, we keep the animals in quarantine for about 7 days, whenever we buy a new animal from the market. We checked the animals in every way so that there is not any kind of virus or any such disease, it treated under the expert doctor.

YD WORKING INFRASTRUCTURE

➤ **Live Weight Facility:**

We do Live weight our animals every month as we grow our animals and improve their quality so we take this decision for our clients and customers to provide the right quantity and right animal.

YD Business

➤ **Fattening Supply Business:**

We keep different size of meat animals on our cattle farm and prepare them for meat and then we sell them to our valuable exporters.

We only raise halal animals such as Bull, Cows, Goats, buffalos & Sheep. All the animals that we produce for meat are done according to our customers requirements, we are also increasing our meat animals to export of meat to abroad by our self as well.

➤ **Milking Supply Business:**

We have Two breeds of Cows and one breed of buffaloes dairy animals and we sell milk in the local market only.

Our Customers

➤ **Pakistan Food Product (PFP):**

Pakistan Food Product (PFP) Makes a very tremendous Halal Meat Quality Product. PFP has been provided its services to world wide market for the last ten years, also quality work for our customers value to honesty and integrity. We have been supplying meat animals to PFP for the last one and a half years and we are happy that we are very satisfied working with PFP.
